MANAGEMENT DISCUSSION AND ANALYSIS

Industry Overview – Dyes :

Presently India, China, Korea, Taiwan and Indonesia are the main producers for the Dyestuffs and Pigments. The manufacturers of Europe and USA have almost shifted the production base to these Asian Countries. The main reason for this is the low cost of production and ample manpower within Asian Countries.

Today India is the second largest producer of Dyestuff after China. Though the Chinese products are very cheap and economical, Indian products are always preferred because of the consistent quality and timely delivery. Also, now in China the cost of production is increasing.

Industry Overview – Pigments :

According to Transparency Market Research, the global pigments market is anticipated to reach \$30 bn plus by 2023. That means expanding at a CAGR of around 4% in next 7 years.

Pigments are extensively used in various Industries such as Paints & Coatings, Printing Inks, Plastic, Rubber, Cosmetics, etc.

China is the largest producer of Pigments in the world. However most of the Pigments produced by the Chinese are commodities type. Germany is the largest producer of High Performance Pigments. Industries in India are slowly but steadily taking a key position, emerging as a strong producer of both commodity as well as high performance pigments.

Business of the Company:

The Company is a globally renowned player in Dyes & Pigment Industry. The Company is manufacturing Dyestuffs for Textiles, Leather & Paper Industries. Company is also producing Organic Azo Pigments. The production facilities are presently at Palghar & Ambarnath, Maharashtra.

Financials & Operational Performance :

India's macro-economic scenario remained under stress during the Financial Year 2015-16 leading to subdued demand and investments. Delayed decision on key factors like GST further stalled the growth of the Indian Industry to some extent. However, our Company remained more or less insulated from the after-effects of the global turmoil in an otherwise favourable external environment, particularly sharp decrease in the price of oils & metals. The Financial highlights for the year ended 31st March 2016 are as under :

(Rs. in Thousands)		
Particulars	F.Y. 2015-16	F.Y. 2014-15
Total Revenues	523,750.75	523688.33
Revenue from Exports	457685.78	470617.94
PBDIT	13,028.64	11,693.11
PAT	8,943.31	7,901.14
Earnings per share	1.63	1.44

Future Outlook and Opportunities:

The Company is having an integral facility with the manufacturing of Intermediates for Dyestuffs & Pigments. Almost the entire capacity of Intermediates is utilized in active consumption for Pigment manufacturing.

Dyes and Organic Pigments to grow at 6% CAGR :

Global demand for dyes and organic pigments is expected to grow 6% per year to \$19.5 bn in 2019. The organic pigments market is expected to witness growth on account of its use in various end-use industries, including printing inks, paints and coatings, plastics, rubber and textiles. Urbanization, coupled with rise in infrastructure spending, is likely to boost the paints market which, in turn, is anticipated to fuel the organic pigments market over the forecast period. Furthermore, use of organic pigments as colorants in textile and plastic industries is expected to contribute to growth. Moreover, rising demand for value added, high-quality organic pigments in the cosmetic industry is likely to drive growth in the next few years.

Although the organic pigment market has reached maturity in North America and Europe, the market is anticipated to receive a boost as major companies are aiming at designing and developing products in sync with continuously changing requirements for evolving technologies. However, volatility in raw material prices is likely to be a major constraint in the growth of the organic pigment market. Numerous North American and European organic pigment manufacturers have been shifting their manufacturing bases to low-cost countries in Asia Pacific on account of absence of stringent environmental compliance issues and lower production costs at the latter locations.

Growth in Paints & Coatings and Textiles is expected to drive growth of Indian Colorant market :

The Indian Dyestuffs and Pigments industry has transformed from being import dependent to one driven by exports. Developed

countries are now focusing on sourcing dyestuffs and pigments from cost effective Asian markets, thanks to stringent environmental constraints back home. Exports have grown in double-digits over the last few years. Going forward, availability of skilled professionals and low cost of manufacturing coupled with Research and Development (R & D) capabilities are seen as strong demand drivers for the dyestuffs and pigments industry in India. Several multinational corporations (MNCs) have established facilities with world class technologies with a view to tap the growing market. Growth in the end user segments, especially paints & coatings as well as textiles, is expected to drive growth in the dyestuffs and pigments industry. The main end-users of pigments in India are printing inks, plastics, rubber and paints & coating industries.

With the upcoming manufacturing plant at Tarapur, Company shall have six times the present capacity of Pigments. An Industrial land is also acquired at Dahej-Gujarat for the second phase of expansion wherein with the implementation of the production, the Company shall have a very strong position as a top 5 Pigment producer of India.

Since most of the Intermediates required in the manufacturing of Dyestuffs & Pigments are produced in-house and with increased capacity we have anticipated significant growth in terms of the financials of the Company.

We are also interacting with certain International players from the world's top 50 Paint Company's and Ink Company's to provide them specialized Pigments & Dyestuffs on a long term basis. Presently Company has exports in more than 48 Countries. New markets have been developed with the Countries in Latin America and Africa.

Company is also increasing its presence on PAN India basis. Distributors & Dealers are appointed in key areas of Printing Inks & Paint Industries. Company is also working with the Printing Ink Manufacturing Company, owned by the Government of India, manufacturing Inks for currency notes. We are positive that the Company will continue to deliver profitable growth, led by increased capacity utilization, increased contribution of value-added products and higher demand in the market place.

Risks, Concerns and Threats :

Fluctuating and volatile prices of key raw materials, including Naphthalene derivatives, coupled with an increasingly stringent regulatory environment, are critical challenges to the growth of this industry. Since we derive a significant portion of our business from exports, volatility of the Rupees vis-à-vis the Dollar and the Euro may affect our realizations. We also face competitive pressures, including competition from Chinese manufacturers who have installed large plants for Pigments. We compete in the areas of quality, technical competence, backward integration, logistics facilities, after-sales service and customer relationship. Changing competitive environment may impact our business and future prospects.

Internal Control and its Adequacy:

Management Team available especially for the Company's production activities is so very highly experienced, that at every stage of production from availability of quality of raw materials till the outcome of production as per ISO 9001:2008, they provide their expertise to such an extent that the Company's products have achieved their due importance in the local and international markets and keeping the quality consistent.

Systems of internal controls adopted by the management team is adequate to ensure that all the assets are guarded and protected against loss from unauthorized and unethical use of such assets. Whenever the assets are disposed off, the transaction cannot go without authorization.

Human Resource Management :

The Company considers its committed and talented workforce as one of its most critical assets and key to driving sustainable performance and developing competitive advantage. In line with its business imperatives, the emphasis has been given to recruit the best talent, nurture, motivate and empower. As on 31st March, 2016 a total of 33 persons were directly employed by the Company.

Actual results could differ materially from those expressed or implied. Important factors that might make the difference to the Company's operations include availability of materials and prices, cyclical demand and pricing in the Company's principal markets, changes in the Government regulations, taxation and commitments for market development in India and abroad.

**“Annexure B” to the Independent Auditor’s Report of even date on the Financial Statements of Vipul Dychem Limited
Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013
 (“the Act”)**

We have audited the internal financial controls over financial reporting of Vipul Dychem Limited (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal financial control based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India

“Annexure A” to the Independent Auditor’s Report of even date on the Consolidated Financial Statements of Vipul Dyechem Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Vipul Dyechem Limited (“the Holding Company”) and its Subsidiary Company as of March 31, 2016 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company and its subsidiary company which are incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal financial control based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal controls stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the holding company and its subsidiary incorporated in India based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the aforesaid entities.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary Company incorporated in India has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India
